

# Key Investor Information

This document provides you with the key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## WS Blue Whale Growth Fund (the "fund"), R Sterling Accumulation, a fund within WS Blue Whale Investment Funds (the "Company") (ISIN: GB00BD6PG787)

Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

### Objective and investment policy

#### Objective

To achieve capital growth (an increase in the value of the fund) after all costs and charges have been taken, over any five year period.

There is no guarantee that the objective will be met over any time period and you may get back less than you invest.

#### Investment Policy

To invest at least 80% in the shares of companies worldwide.

The fund may also invest up to 20% in government bonds (which are loans that usually pay interest), money market instruments (which are short term loans that pay interest) and cash.

The Investment Manager will invest in companies that, in their opinion, have the ability to grow and improve profitability and are not over valued.

Other features of the fund:

- The fund is actively managed. The Investment Manager uses its expertise to select investments for the fund and has the discretion to invest without the need to adhere to a particular benchmark.
- The fund can invest in other funds (including those managed by the Manager and its associates).
- The fund can invest across different geographic areas and industry sectors without limitation.
- You can buy and sell shares in the fund every business day.
- Income from the fund will be added to the value of your investment.
- Derivatives (whose value is linked to that of another investment, e.g company shares, currencies) may be used to manage the risk profile of the fund.
- Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

- This indicator shows how much a fund may have risen and fallen in the past, and therefore how much a fund's returns may have varied. It is a measure of a fund's volatility.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class.
- The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains.

- The fund has been classed as 6 because its volatility has been measured as above average to high.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time. The lowest number on the scale does not mean that a fund is risk free.
- Counterparty Risk: The failure of a firm involved in a transaction with the fund or providing services to the fund may expose the fund to financial loss.
- Currency Risk: As the fund can be exposed to different currencies, changes in exchange rates may decrease the value of your investment.
- Concentration Risk: The fund intentionally holds a small number of investments (25 to 35 stocks) and so will be more concentrated than many other funds. The fund may also invest in stocks with a particular industry, sector or geographical focus. This means that the performance of a single stock, industry sector or geographical region within the fund may have a greater effect (loss or gain) on the value of the fund.
- For more information about the fund's risks please see the Risk Factors section of the prospectus which is available at [www.waystone.com](http://www.waystone.com).

## Charges for this fund

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
Charges taken from the fund over the year	
Ongoing Charges	1.09%
Charges taken from the fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is based on expenses as at 30 June 2023. The fund's annual report for each financial year will include detail on the exact charges made.

It excludes portfolio transaction costs, except entry/exit charges paid by the fund when buying or selling units in other collective investment schemes.

A dilution adjustment (an adjustment to cover dealing costs incurred by the fund) may be made which may increase or decrease the price you receive when you buy or sell shares in the fund. This is normally only charged when the dealing costs are significant.

For more information about charges, please see the Company's prospectus which is available at [www.waystone.com](http://www.waystone.com).

## Past performance

- Past performance is not a guide to future performance.
- The past performance in the chart shown opposite is net of tax and charges.
- The fund was launched in September 2017.
- Past performance takes into account all charges and costs
